### Curriculum Philosophy

Our Preschool curriculum is Christ-centered and child-focused, built around age-appropriate learning experiences that nurture the whole child—mind, body, and spirit. Rooted in the love of Jesus, our approach encourages children to grow in faith while developing foundational skills for life and learning. Each day is designed to reflect God's love, helping children understand that they are uniquely created and deeply valued.

We aim to foster growth in the following key areas:

- Language development
- Physical and cognitive skills
- Social interaction and relationship-building
- Daily routines and structure
- Spiritual growth through Bible stories, prayer, and chapel

At the heart of everything we do is our mission to instill a love for God in each student. This spiritual foundation is built through sharing Bible stories, attending chapel, and modeling Christian love and values in our daily interactions. We remind children each day that they are deeply loved by God and were created with purpose.

### Classroom Learning

We provide a balanced curriculum that encourages problem-solving and experimentation through classroom activities. Children engage with:

- Puzzles and manipulatives
- Roleplaying and dramatic play
- Arts and crafts
- Musical instruments

Children have the freedom to choose to play independently or in groups, supporting both self-directed and collaborative learning.

### Individual Support and Development

Our goal is to nurture each child's unique interests and needs. We encourage curiosity and a love for learning by:

- Supporting individual learning styles
- Fostering creativity and imagination
- Promoting an appreciation for knowledge

### Social & Emotional Growth

Throughout the school day, we promote:

- Manners and politeness
- Empathy and kindness
- Respectful interactions

### Enrichment & Special Activities

In addition to classroom learning, we offer enriching experiences that include:

- Field trips
- Special plays
- Classroom celebrations

These activities enhance the joy of learning and build lasting memories for our students.
