Middle School Technology Acceptable Use Policy

Trinity Lutheran School recognizes the value of computer and other electronic resources to improve student learning and enhance the administration and operation of its ministry. To this end, the Administration of Trinity Lutheran School encourages the responsible use of computers (for the purpose of this document “computer” is used as a generic term to include all electronic devices such as but, not limited to: iPads, Chromebooks, tablets, and other electronic communication or data sharing devices, including personally owned devices permitted to be used on Trinity Lutheran School networks); computer networks, including the Internet; and other electronic resources in support of the mission of Trinity Lutheran School.

Because the Internet is an unregulated, worldwide vehicle for communication, information available to staff and students is impossible to control. Therefore, the Administration of Trinity Lutheran School will enforce the “Technology Acceptable Use Policy” (policy) governing the required and/or voluntary use of electronic resources and the Internet in order to provide guidance to individuals and groups obtaining access to these resources on Trinity Lutheran School-owned equipment or through Trinity Lutheran School networks, affiliated email accounts, or other electronic forms of communication. The purpose of the policy, therefore, is to prevent unauthorized access and other unlawful activities by users online, prevent unauthorized disclosure of or access to sensitive information, and to comply with the Children’s Internet Protection Act (CIPA).

Trinity Lutheran School Rights and Responsibilities:

It is the policy of Trinity Lutheran School to maintain an environment that promotes Christ-centered, ethical, and responsible conduct in all online network activities by staff, students, parents, and any authorized user. It shall be a violation of this policy for any employee, student, or other individual to engage in any activity that does not conform to the established purpose and general rules and policies of the network. Within this general policy, Trinity Lutheran School recognizes its legal and ethical obligation to protect the well-being of students in its charge. To this end, Trinity Lutheran School retains the following rights and recognizes the following obligations:

- To log network use and to monitor file server space utilization by users, and assume no responsibility or liability for files deleted due to file server space allotments.
- To remove a user account on the network.
- To monitor the use of online activities. This may include real-time monitoring of network activity and/or maintaining a log of Internet activity for later review.

Such controls shall include the right to determine who will have access to Trinity Lutheran School-owned equipment and, specifically, to exclude those who do not abide by Trinity Lutheran School’s acceptable use policy or other policies governing the use of school facilities, equipment, and materials. Trinity Lutheran School reserves the right to restrict online destinations through software or other means.
- To provide guidelines and make reasonable efforts to train staff and students in acceptable use and policies governing online communications.
